Notice Regarding the Recording of an Extraordinary Loss Associated with the 2026 Kumamoto Earthquake

Dynamic Map Platform Co., Ltd. (the "Company") hereby announces that, due to the impact of the 2026 Kumamoto Earthquake that occurred on July 28, 2026, the Company recorded an extraordinary loss in the second quarter (interim period) of the fiscal year ending March 31, 2027, as described below.

With respect to the impact of the earthquake, in the "Consolidated Financial Results for the First Quarter of the Fiscal Year Ending March 31, 2027 [Japanese GAAP]" announced on August 7, 2026, the Company disclosed that it was investigating the extent of the impact and the amount of damage and that restoration costs, including costs related to the repair and recreation of map data, were expected to be incurred.

1. Details of the loss

   As a result of the 2026 Kumamoto Earthquake, discrepancies arose between the high-precision 3D map data held by the Company and actual road conditions and other real-world conditions, making it necessary to repair and recreate certain portions of the map data provided to customers.
   Following an investigation into the extent of the impact and the amount of damage, the Company recorded JPY 32 million as "Loss on disaster" under extraordinary losses in the second quarter (interim period) of the fiscal year ending March 31, 2027. The amount represents a provision for loss on disaster related to costs expected to be incurred for the repair and re-creation of map data and related restoration work.

2. Impact on financial results

   The extraordinary loss described above has been reflected in the "Consolidated Financial Results for the Second Quarter (Interim Period) of the Fiscal Year Ending March 31, 2027 [Japanese GAAP]" announced today.

There is no change to the full-year consolidated earnings forecast for the fiscal year ending March 31, 2027 announced on May 14, 2026.
