STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the interim financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare interim financial statements for each financial period. Under that law the directors have elected to prepare the interim financial statements in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board. The financial statements are required by law to be properly prepared in accordance with the Companies (Jersey) Law 1991.

International Accounting Standard 1 requires that financial statements present fairly for each financial period the Company's financial position, financial performance and cash flows. This requires the faithful representation of the effects of transactions, other events and conditions in accordance with the definitions and recognition criteria for assets, liabilities, income and expenses set out in the International Accounting Standards Board's 'Framework for the preparation and presentation of financial statements'. In virtually all circumstances, a fair presentation will be achieved by compliance with all applicable IFRSs. However, directors are also required to:

- · Properly select and apply accounting policies;
- Present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- Provide additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- · Make an assessment of the Company's ability to continue as a going concern.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies (Jersey) Law 1991. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

As required by the Disclosure and Transparency Rules of the UK Listing Authority, the directors confirm to the best of their knowledge that:

- The financial statements, prepared in accordance with International Financial Reporting Standards, give a true and fair view of the assets, liabilities, financial position and profit of the Company; and
- The Directors' Report includes a fair review of the developments and performance of the business
 and the position of the Company, together with a description of the principal risks and uncertainties
 that it faces.
