2. Reasons for the revisions

For the first half of the fiscal year ending March 31, 2014, net sales are projected to be largely in line with the planned figures. However, profits are exceeding the initial forecast, mainly attributable to Daifuku Co., Ltd.'s significant efforts in cost cutting and the favorable results of subsidiaries in

North America and Asia. Accordingly, operating income, ordinary income, and net income have been adjusted upward.

Also, considering the revisions above, operating income, ordinary income, and net income have been adjusted upward for the fiscal year ending March 31, 2014, despite the economy conditions in European and emerging countries are uncertain.
