INTERIM FINANCIAL REPORT

Notes:-

Disclosure requirements pursuant to FRS 134 – paragraph 16

The Condensed consolidated interim financial statements should be read in conjunction with the audited financial statements of the Group for the year ended 30 June 2014.

A1. Accounting Policies and Methods of Computation

The interim financial report is unaudited and has been prepared in accordance with Financial Reporting Standard (“FRS”) 134 “Interim Financial Reporting” and Chapter 9, part K paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Securities”).

The accounting policies and methods of computation adopted by the Group in the interim financial statements are consistent with those adopted in the latest audited annual financial statements except for the adoption of the amendments to FRSs and IC Interpretations (“IC Int”) that are applicable to the Group for the financial period beginning 1 July 2014.

The adoption of these amendments to FRSs and IC Int does not have any significant impact on the financial statements of the Group except as disclosed below:-

Malaysia Financial Reporting Standards (“MFRS Framework”)

On 19 November 2011, the Malaysian Accounting Standards Board (“MASB”) issued a new MASB approved accounting framework, the MFRS Framework.

The MFRS Framework is to be applied by all Entities Other Than Private Entities for annual periods beginning on or after 1 January 2012, with the exception of entities that are within the scope of MFRS 141 Agriculture and IC Interpretation 15 Agreements for Construction of Real Estate, including its parent, significant investor and venturer (herein called ‘Transitioning Entities’). Transitioning Entities will be allowed to defer adoption of the new MFRS Framework. Consequently, adoption of the MFRS Framework by Transitioning Entities will be mandatory for annual periods beginning on or after 1 January 2017. Early application of MFRS is permitted.

Utilities

For the financial year ending 30 June 2015, the increase in generation capacity into the electricity market of Singapore would add pressure to both margin and sales volume for the current financial year for the multi utilities business (merchant) division. Nevertheless, this division would continue to strive to diversify beyond their core business into integrated multi-utilities energy platform with focus on customer service. The water & sewerage company operates under strict regulatory regime and has met all of its regulatory targets and is top of the regulator's league table for customer service. Hence, the management is confident of delivering its 2010-15 regulatory outperformance target. This division has a long term planning horizon to ensure that water resources are going to be available in the future. Despite the challenging market in the telecommunications industry, this business division is expected to continuously grow its subscriber base to generate higher revenue by introducing improved and innovative services to the market.
