Disclosure Based on the Principles of Corporate Governance Code **Update**

The status of the implementation of the Company's measures based on the principles set forth in the Corporate Governance Code is presented in the Basic Corporate Governance Policy and this report.

Principle 1.4: Cross-Shareholdings

The Company has established the "Policy for Holding Policy-Oriented Stocks" for the purpose of Holding Policy-Oriented Stocks and the "Policy for the Voting Right Exercise Standards of Holding Policy-Oriented Stocks" in relation to such stocks. These policies and standards are disclosed through the following media.

Outline of "Policy for Holding Policy-Oriented Stocks"

Outline of "Policy for the Voting Right Exercise Standards of Holding Policy-Oriented Stocks"

http://www.resona-gr.co.jp/holdings/english/about/governance/pdf/related_policies2.pdf

Note: As of March 31, 2015, policy-oriented stocks held by the Company have been verified for their appropriateness in light of the "Policy for Holding Policy-Oriented Stocks." The results follow.

- The burden of holding these policy-oriented stocks is not in excess of the Company's financial strength.
- The purpose of all the policy-oriented stock holding is in compliance with the "Policy for Holding Policy-Oriented Stocks."

In addition, this stockholding verification was conducted on both a quantitative and qualitative basis. The former was verified by examining the profitability* of investees with consideration given to the cost of stockholding. The latter was verified by assessing their medium- and long-term credit risk. Also, the Company regularly monitors the status of investees whose stock performance falls short of its in-house standards while periodically checking on the progress of negotiations aimed at selling the stocks of underperforming investees.

*The verification confirmed that the overall profitability of stockholdings, including unlisted companies, surpassed capital costs. On an individual basis, approximately 80% of investees satisfied the Company's in-house standards for profitability.

The Company set forth procedures that should be followed prior to making business transactions with related parties and presented said procedures on Article 5 of the Basic Corporate Governance Policy (Approval of Transactions with Parties Concerned).

Established under the direct control of the Audit Committee, the Office of the Audit Committee is comprised of specialist personnel, who support the Audit Committee in the execution of its duties. Cooperation among Audit Committee, Accounting Auditors and Internal Audit Departments Update

The Audit Committee receives reports from the Internal Audit Division with regard to such important matters as the *Internal Audit Basic Plan* and engages in discussions thereon. In addition to receiving reports on audit results furnished by said division, the committee may give specific instructions to the division regarding the execution of further inspections, if necessary, while requesting the submission of reports on such inspections. As such, the Company maintains an auditing structure that facilitates frequent and flexible collaboration between the Audit Committee and the Internal Audit Division. At the same time, the Audit Committee regularly receives reports from accounting auditors regarding the progress status of their auditing activities as well as audit results. Moreover, the chairman of the Audit Committee and full-time committee members attend monthly meetings with accounting auditors and the Internal Audit Division to exchange opinions, with the aim of ensuring cooperation between the committee, the division and accounting auditors—the three key entities engaged in auditing.

Policy on Determining Remuneration Amounts and Calculation Methods:	Yes
---------------------------------------------------------------------	-----

Disclosure of Policy on Determining Remuneration Amounts and Calculation Methods Update

Basic Concepts behind the Company's Compensation Systems for Directors and Executive Officers

- (1) Remuneration for directors and executive officers is determined by the Compensation Committee following objective and transparent procedures.
- (2) Compensation systems for directors are focused on rewarding their performance of their primary duty of providing the sound supervision of executive officers.
- (3) Compensation systems for executive officers are designed to maintain and boost their motivation to carry out their business execution duties, with the performance-based variable portion accounting for a significant proportion of their total compensation.

In addition, with the aim of promoting the Group's sustainable growth and strengthening incentive systems for executive officers on a medium- to long-term basis to enhance its corporate value, Resona Holdings has adopted share-based compensation.

1. Compensation Systems for Directors

Compensation systems for directors consist of a position-based fixed portion, a performance-based variable portion and a duty-based additional fixed portion. The ratio of compensation paid to directors under this position- and performance-based system is 95:5, respectively.

Type of compensation	(1) Position-based fixed portion	(2) Performance-based variable portion	Total (1)+(2) (%)	(3) Duty-based additional fixed portion
Payment form	Cash	Cash (Annual incentive)	—	Cash
Proportion	95%	5% (standard amount)	100%	Compensation for outside directors serving as committee members

(1) Position-based fixed portion

The position-based fixed portion is determined by the nature and scope of responsibilities held by each individual.

(2) Performance-based variable portion

The performance-based variable portion is determined after taking into consideration the results of the previous fiscal year. The amount allocated to this portion may decrease to zero or increase as much as twofold in an amount commensurate with the Company's operating results. Specifically, the Compensation Committee determines the amount by examining total consolidated income before income taxes and minority interests; the profitability, soundness and efficiency of operations; and the Company's annual growth rate vis-à-vis annual performance targets for these factors.

(3) Duty-based additional fixed portion

The duty-based additional fixed portion is determined by the nature and scope of responsibilities held by each outside director who also serves as a member of the Nominating Committee, Compensation Committee and Audit Committee.

2. Compensation Systems for Executive Officers

Compensation systems for executive officers consist of a position-based fixed portion and a performance-based variable portion. The latter portion comprises cash-based compensation determined on the basis of the Company's annual operating results as well as share-based compensation that reflects its medium- to long-term results. In order to maintain and enhance its incentive systems for executive officers, a significant ratio of compensation is accounted for by the performance-based variable portion (details follow). Furthermore, the

composition of compensation paid to executive officers who take senior positions has a greater emphasis on the performance-based variable portion.

In addition, executive officers who concurrently serve as directors receive no director remuneration.

Type of compensation	(1) Position-based fixed portion	(2) Performance-based variable portion		Total (1)+(2) (%)
Payment form	Cash	Cash (Annual incentive)	Shares (Medium- to long-term incentives)	--
Proportion	50%-60%	20%-25% (Standard amount)	20%-25% (Standard amount)	100%

Note: The percentage figures for the performance-based variable portion stated above are standard amounts presented as ratios to total compensation. The cash-based component of the performance-based variable portion is paid in standard amount when the Company's annual performance targets for the previous fiscal year and individual executive officer's annual performance targets for said year are by and large met. The share-based component of said portion is paid in standard amount when the prescribed conditions for payment are fulfilled.

(1) Position-based fixed portion

The position-based fixed portion is determined by the nature and scope of responsibilities held by each individual.

(2) Performance-based variable portion

The performance-based variable portion consists of cash-based compensation (annual incentive) and share-based compensation (medium- to long-term incentives).

(i) Cash-based compensation (annual incentive): This component is determined based on the annual operating results and individual achievements. The amount allocated to this portion may decrease to zero or increase as much as 1.5 times. Specifically, the Compensation Committee determines the amount by examining total consolidated income before income taxes and minority interests; the profitability, soundness and efficiency of operations; and the Company's annual growth rate vis-à-vis annual performance targets for these factors. The achievements of each executive officer are also taken into account by the Compensation Committee in the process of determining amounts paid to individuals.

(ii) Share-based compensation (medium- to long-term incentives): To ensure the provision of incentives for sustainably enhancing corporate value and securing greater shareholder value over medium- to long-term, the share-based component is introduced for the purpose of acquiring Company shares. The amount allocated to this component may decrease to zero. With the Compensation Committee assessing operating results in order to decide on the amount to be paid, the principal condition determining payment of share-based compensation is whether consolidated total income before income taxes and minority interest posted and other performance indicators have satisfied or failed to satisfy projected levels in the Company's medium-term management plan, and if the latter, by how much. For fiscal 2016, the Company plans to provide executive officers with a share-based component by providing funds specifically earmarked for acquiring Company shares (after deducting individual income taxes imposed on such funds) through the Directors' Shareholding Association. In principle, they possess such shares until retirement from the position of executive officer.

Going forward, the Company will consider the adoption of new methods for providing share-based compensation closely linked to shareholder value, including the provision of restricted stock.

[Support System for Outside Directors] Update

As part of the support structure and system, specialist personnel (Corporate Governance Office) are appointed to provide information to outside directors. The Corporate Governance Office assists in the affairs and operations of the Board of Directors, the Nominating Committee and the Compensation Committee. The Office is charged

with the responsibility of supporting directors in the execution of their supervisory and decision-making functions. Corporate Governance Office personnel provide outside directors with prior explanations of matters to be discussed at scheduled Board of Directors' meetings. Questions, opinions and suggestions from outside directors who received prior explanations, including those voiced by individuals who plan to be absent at an upcoming Board of Directors meeting, are relayed to the relevant and responsible divisions and related departments in addition to being presented at the Board of Directors meeting to spur active discussions. The appropriate executive officers and personnel of responsible divisions and departments provide direct explanations to outside directors in the cases of urgent and specific items.

Opinions or requests made at meetings of the Board of Directors are acted on by the Corporate Governance Office and the status and results of steps taken based on such opinions and requests are periodically reported to outside directors and the Board of Directors.

In addition, seminars are held for newly appointed outside directors on particular aspects of the highly specialized banking business, with lectures presented by Executive Officers from the supervising sections of such directors.

2. Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System) Update

Overview of the current management structure is as follows. Please see “3. Reasons for Adoption of Current Corporate Governance System” as described hereinafter for the rationale underlying the current management structure.

Board of Directors

The Board of Directors fully ensures that management engages in substantial discussion in fulfilling its responsibilities of making decisions about important Group management issues and supervising the execution of business activities by executive officers and directors. The Board of Directors consists of ten directors, six of whom are outside directors, and the numbers of male and female directors are eight and two, respectively. One of the specific features of the Committees Governance Model as a company with a nominating committee, etc. is that while the Board of Directors makes decisions regarding important management issues and supervises the execution of operations, clearly defined roles give executive officers responsibility for the execution of operations, thus strengthening the Board of Directors' supervisory and decision-making functions. In June 2005, the presidents of all Group banks became executive officers of Resona Holdings in order to ensure enhanced supervisory functions of the holding company vis-à-vis Group banks. In fiscal 2015, the Board of Directors met 17 times, with an average attendance rate among the directors of 93.4%.

Nominating Committee

The Nominating Committee comprises three committee members, with one member serving as the committee chairman and all of the members being outside directors. The committee makes decisions regarding proposals for the selection and dismissal of directors that are submitted to the shareholders meeting, based on the specific qualities that the Group should seek in its directors as well as the “Standards for Electing Director Candidates” both of which have been discussed and decided at the committee's meetings. This committee met six times in fiscal 2015. In June 2007, The Nominating Committee decided to introduce a succession plan that serves as a mechanism to ensure that the most appropriate candidates fill top management roles and responsibilities with the aim of accelerating the Group's management reform and realizing the enhancement of corporate value on a sustainable basis. The status of the implementation of the succession plan is examined by the Nominating Committee and reported to the Board of Directors.

Audit Committee

The Audit Committee comprises three directors, including two outside directors, one of whom serves as the chairman, and another director who serves full-time. At least one committee member possesses the appropriate expertise on finance and accounting affairs. In addition to auditing the execution of duties by executive officers and directors, this committee makes decisions regarding proposals for the selection and dismissal of accounting auditors, which are submitted to the General Meeting of Shareholders. The Audit Committee receives reports

from the Internal Audit Division with regard to such important matters as the Internal Audit Basic Plan and engages in discussions thereon. In addition to receiving reports on the audit results furnished by said division, the committee may give specific instructions to the division regarding the execution of further inspections, if necessary, while requesting the submission of reports on such inspections. As such, the Company maintains an auditing structure that facilitates frequent and flexible collaboration between the Audit Committee and the Internal Audit Division. Furthermore, the committee works with the Compliance Division, the Risk Management Division, the Finance and Accounting Division, and other divisions to supervise and verify internal control systems and make the necessary responses, urging executive officers and other responsible personnel to make essential improvements. This committee met 13 times in fiscal 2015.

Compensation Committee

The Compensation Committee comprises three committee members, with one member serving as the committee chairman and all of the members being outside directors. This committee makes decisions about policies regarding benefits for individual directors and executive officers as well as the actual benefits for specific individuals. In addition, the committee considers the role a director compensation system should play in enhancing the Group's corporate value. In fiscal 2015, the committee met seven times. The committee abolished the directors' retirement benefit system and introduced a performance-based compensation system in fiscal 2004. In addition, the committee adopted a compensation system that includes a share-based variable portion in fiscal 2010.

There is no committee member who is mutually appointed through the auspices of another company.

Executive Committee

Resona Holdings set up the Executive Committee as a body to deliberate and report on generally important management items and important matters in the execution of operations to support the decision-making process in the execution of operations. The Executive Committee consists of representative executive officers as well as executive officers and employs serious debate to ensure the transparency of decisions regarding significant management issues. In fiscal 2015, this committee met 42 times. Important issues related to the execution of the Company's business are reported to and discussed at this committee.

Internal Auditing Council

As a body to deliberate and report on important matters related to internal audits, Resona Holdings has established an Internal Auditing Council that is independent from the Executive Committee, which serves as a body for the execution of business. The council is composed of all representative executive officers, a full-time Audit Committee member, the executive officer in charge of the Internal Audit Division, the general manager of the Internal Audit Division and other personnel involved with internal auditing. The content of deliberations and reports are conveyed to both the Board of Directors and the Audit Committee. The council met 15 times in fiscal 2015 and, in addition to discussing the internal auditing plan, it reported on the results of internal audits.

The Status of Audits

As a part of its audit structure and system, Resona Holdings established the Internal Audit Division that operates under the Board of Directors. This division maintains strict independence from divisions in charge of the execution of Group operations and is headed by an executive officer who has been specially appointed to oversee the audit function. As of March 31, 2016, the Internal Audit Division was composed of a general manager and 123 support staff, 97 of whom hold concurrent positions within the internal audit divisions of the Group banks. The Internal Audit Division conducts internal audits encompassing business operations and all operating divisions and departments excluding the Office of Audit Committee. This division strives to ensure healthy and appropriate business operations and to enhance corporate value through recommendations aimed at resolving problems and issues. Specifically, taking into consideration the degree of inherent risk present within individual operations at such internal control divisions as the Compliance Division, the Risk Management Division and the Financial Accounting Division, the risk management framework of each operating division and department and the efficacy and efficiency of internal audits, the Internal Audit Division prepares a basic policy and plan for internal auditing for each fiscal year. After obtaining the opinions of the Audit Committee and the Company's accounting auditor, the Internal Audit Division submits this policy and plan to the Board of Directors for

approval.

In addition to the results of internal audits, the results of executing recommended improvement measures at departments subject to audits is reported to the Board of Directors, the Audit Committee and the Internal Auditing Council. If the situation merits, the Audit Committee will directly instruct the Internal Audit Division to carry out and report on further inspections.

The Internal Audit Division receives periodic reports from accounting auditors with regard to audit results and the status of their auditing activities. Moreover, the division and accounting auditors work in close collaboration, regularly exchanging information so as to pool knowledge pertaining to internal control systems other relevant matters.

Deloitte Touche Tohmatsu LLC was appointed as the Company's accounting auditor for fiscal 2015. The relevant accounting audit was conducted by the following certified public accountants.

Deloitte Touche Tohmatsu LLC

Shigeru Omori (Five years)

Mitsuo Kimura (Five years)

Takeshi Ota (One year)

(23 other support staff)

Note: Figures in parentheses are the number of consecutive accounting audit years.

3. Reasons for Adoption of Current Corporate Governance System

In June 2003, Resona Holdings has adopted the Committees Governance Model (currently known as the company with a nominating committee, etc. governance model) based on its recognition that said model is best suited for the Company's goal of securing a clear separation between functions for supervision and execution of business operations and strengthening the ability of its Board of Directors as a management oversight and decision-making body. Since then, the Company has maintained a corporate governance system under this governance model.

3. Measures to Ensure Due Respect for Stakeholders Update

Supplementary Explanations

Stipulation of Internal Rules for Respecting the Position of Stakeholders	<p>The Resona Group's Corporate Mission defines a set of core values shared by all officers and employees and provides guidelines for their business conduct. The <i>Resona Way</i> (the Resona Group's Corporate Promises) determines the fundamental stance of the Group in its pursuit of the Corporate Mission. Based on these values, the Company formulated <i>Resona Group CSR Policies</i> aimed at addressing material issues defined by ISO 26000 standards and clarifying its approach to initiatives aimed at fulfilling its corporate social responsibility. In this way, the Resona Group will strive to contribute to the development of a sustainable society in line with these policies.</p>
Implementation of Environmental Activities, CSR Activities, etc.	<p>For the Resona Group to be accepted by society and realize sustainable growth, it must act in line with the Resona Group's Corporate Mission and the <i>Resona Way</i> to maintain the support of all stakeholders. With this in mind, the Group is committed to building relationships of trust with customers, working hard to make social contributions, and sincerely respecting the personality of each employee. Based on this philosophy, a Group CSR Committee has been formed with the mission of putting CSR management into practice. The president of Resona Holdings heads the committee, and its members are the presidents of Group banks and executive officers in charge of corporate management divisions.</p> <p>To guide its efforts aimed at better responding to diverse social needs in a detailed way, the Group has formulated <i>Resona Group CSR Policies</i>, which identifies seven material issues* while adopting a structure to promote initiatives to address the CSR Targets set forth for each of such issues.</p> <p>*Corporate governance, respect for human rights, diversity promotion, compliance, consumer and customer services, community contribution and environmental protection</p> <p>In addition to the Company's Website and disclosure materials, Resona Holdings' CSR report and other materials. The following are a few examples of the Group's CSR activities.</p> <p>* Local Communities' Programs</p> <p>< "Re: Heart Club" ></p> <p>To mark the 10th year since the inauguration of the Resona Group, in October 2012 the Group established the "Re: Heart Club" to show its gratitude to local communities, which have supported the Group up to the present. The Club is intended to provide solutions for issues currently besetting local communities. To this end, voluntary activities are now being planned and implemented by the Club to revive local communities, nurture future generations and protect the environment.</p> <p><Service Reforms></p> <p>In its efforts to continuously enhance customer services, the Resona Group continues to implement a variety of measures. These measures include the "shorter waiting time" campaign and the establishment of counters that are open until 5 p.m. while enabling transfer between Group banks on a 24/7 basis. The Group also increased the number of branches operating during national holidays.</p> <p>As part of strengthened initiatives for improving accessibility, the Group puts its emphasis on making its branches more convenient for the elderly and people with disabilities. To that end, the Group has set up Priority ATMs that preferentially offer ATM service to such individuals, along with Priority Seats for their convenience. At the same time, for those who use wheelchairs, the Group introduced lower desks and set up the booths for viewing safety deposit boxes with accessibility in mind. Moreover, all Group employees have participated in the "Ninchishō (Dementia) Supporter" training program sponsored by Japan's Ministry of Health, Labour and Welfare. In these ways, the Resona Group is working to create bank branches that guarantee usability and peace of mind for all visitors.</p> <p><CSR Initiatives through the Provision of Financial Services></p> <p>In addition to these initiatives, the Resona Group undertakes various activities in response to an aging society with declining birthrates. These activities include developing products and services to accommodate customer needs relating to asset inheritance. Moreover, the Resona Group promotes various other activities aimed at help solving issues in communities through financial services—the Group's field of expertise—such as providing support for regional corporations through various orientations and business matchmaking events, implementing plans to support new product development and the recruiting activities of regional corporations.</p> <p>* Programs for Next Generations</p>

	<p><Resona Kids' Money Academy></p> <p>As part of efforts to contribute to local communities and society at large, since 2005 the Resona Group has been active in helping children learn financial and economic subjects. During the summer vacation period in 2015, events were held at 210 locations nationwide. The approximately 4,500 children who participated were introduced to the importance of money and how it links to realizing future dreams. Since the program's inception, the cumulative total of participants has exceeded 25,000.</p> <p><Supporting Human Resource Nurturing Overseas></p> <p>To help nurture human resources capable of serving as a bridge between Japan and other countries, the Resona Group maintains an overseas scholarship program. Resona Bank made an endowment to the Japanese Studies Department of the University of Hong Kong and the Chinese University of Hong Kong, and has continued to provide support through the "Resona Bank Scholarship System." Moreover, Bank Resona Perdania in Indonesia grants scholarships to students studying at the Japanese Language Department, Faculty of Humanities, at Universitas Indonesia.</p> <p><The Resona Foundation for Future ></p> <p>In November 2015, the Resona Group established The Resona Foundation for Future, a general incorporated foundation aimed at supporting children in need of financial assistance for their pursuit of education as well as single mothers who aspire to build successful careers.</p> <p><Children 110 Activities></p> <p>The Resona Group identified approximately 600 manned Group bank branches to serve as emergency help centers for children. With a lot of the Resona Bank's branches offering extended hours past 5:00 p.m. on weekdays, they have proven to be of help to children on their way home after school.</p> <p><Table for Two and Other Activities></p> <p>The Resona Group participates in the "Table for Two Campaign" at several of its Group bank head office buildings and the Resona Group OBP Office Building. For each purchase of a low-calorie meal at Group bank staff cafeterias, the Resona Bank donates ¥20 to provide school catering to children around the world suffering from famine. In addition, the Group supports the nationwide "school festival for the Special Needs School," a student contest encompassing paintings, photographs, calligraphy and other artworks.</p> <p>* Diversity Management</p> <p>With the aim of realizing greater corporate value through the creation of a working environment that encourages women to aim for success, the Resona Women's Council, an advisory group, was formed to directly reflect women's perspectives and opinions in the Group's top management. The Council focuses on developing a comfortable workplace for women, suggesting and carrying out a variety of initiatives aimed at raising female workers' awareness of career development opportunities and assisting those in their child-rearing years in their efforts to strike a work-life balance.</p> <p>For example, the Council spearheaded the establishment of the "Mentoring System" and the provision of such training sessions as the "Women's Training Workshops on Leadership" and the "Female Employees' Networking Seminar" while hosting a gathering aimed at facilitating exchange between Group female employees and external participants from different business sectors. By doing so, the Council is assisting female workers with their career development.</p> <p>Also, the Group is hosting a variety of seminars aimed at helping women strike a balance between family duties and work. These initiatives include the "Pre-Mama Seminar" aimed at helping expectant mothers get a clearer picture of how to strike a work-life balance through briefings on the Company's support systems and lectures by employees who have gone through similar experiences.</p> <p>Other examples included "Resona Reinstating Support Seminar" aimed at providing employees on childcare leave with information regarding how to strike a balance between work and childcare after their reinstatement and thereby clearing the anxiety they often have. Also, "Nursing Care Seminars" are held periodically to aid those who are struggling to balance work and nursing care.</p> <p>The Resona Group is assisting employees in need of flexible working styles due to child rearing, nursing care and other family duties that often require their intensive involvement for a certain period of time. For example, the Group introduced a "smart staff" system, in which employees are allowed to work shorter working hours and are given more limited job duties compared with other employees. The "Job Category Conversion System" allows for temporary switches between full-time employment, "smart staff" and "partner staff" positions. Furthermore, the "Job Return" system enables women who have resigned from the Group for child rearing and nursing care to get reinstated as "smart staff." In these ways, the Group is encouraging its employees to proactively develop their careers while striving to remove factors that may hinder them from serving at the Group workplaces over the long-term.</p> <p>In recognition of these and other activities aimed at helping women succeed, the Resona Group was selected to bear the</p>

IV. Matters Related to the Internal Control Systems

I. Basic Views on Internal Control Systems and the Progress of System Development Update

To enhance its corporate value, Resona Holdings' Board of Directors formulated the Group's Basic Policies for Group Internal Control Systems with the aim of structurally entrenching a system that ensures appropriate operations and simultaneously realizing the best possible internal control system. In addition, a resolution to revise a portion of the aforementioned policies was made at the Board of Directors meeting held on March 29, 2016. The revised policies are described below.

Basic Policies for Group Internal Control Systems

(1) Statement

The Company and other companies of the Group* seriously view the fact that the Group had to reinforce capital by accepting a massive infusion of public funds. In order to prevent the recurrence of such a situation, the Group hereby formulates the Basic Policies on Group Internal Control.

In accordance with the Basic Policies, the Group aims to establish an internal control system most befitting the Group and strives to manage and maintain control systems in optimal condition to ensure their efficacy, with a view to enhancing the Group's corporate value.

*Refer to companies set forth under Article 2, item 3 of the companies Act and Article 3 of the Ordinance for Enforcement of the Companies Act. Hereinafter the same.

(2) Purpose of Internal Control Systems (Basic Principles)

In accordance with generally accepted evaluation standards for internal control systems, the Resona Group shall adopt as the Group's basic principles on internal controls the fulfillment of the following four goals.

- a. Improve efficacy and efficiency of operations**
- b. Assure reliability of financial disclosure**
- c. Comply with legislation**
- d. Maintain the soundness of assets**

(3) Constructing Internal Control Systems (Basic Guidelines)

Resona Holdings shall develop internal control systems composed of the basic elements required for the systems to fulfill their purposes, including a control framework, risk evaluation and response system, internal control activities, information and communication systems, monitoring standards and IT systems. Upon establishment of the *Corporate Mission* shared throughout the Group and based on these policies, Resona Holdings shall determine the following basic guidelines in constructing systems to ensure that the Group's operations are conducted in an appropriate manner.

- a. Guidelines to ensure that business operations of Resona Holdings' Executive Officers and employees as well as Directors, Executive Officers and employees at each Group company are executed in compliance with legislation and Group regulations
- b. Guidelines to store and manage information related to the execution of operations by Executive Officers
- c. Guidelines to govern the management of loss risk that may arise at Resona Holdings or its Group companies and related systems

- g. Guidelines to ensure the independence of the specialist personnel mentioned above in relation to Executive Officers and that instructions to said personnel are carried out effectively

- i. Guidelines concerning a system to ensure that a person who made the abovementioned reporting is not treated disadvantageously
- j. Guidelines concerning the treatment of expenses occurred in connection with the execution of duties by the members of the Audit Committee
- k. Guidelines to ensure that audits by the Audit Committee are conducted effectively

2. Status of Internal Control Systems

The Resona Group is making every effort to properly develop and manage sound internal control systems, in accordance with the provisions of the *Basic Policy for Group Internal Control Systems*. The Resona Group is also working to ensure the efficacy of these systems.

(1) Status of Group Management Systems

The Resona Group strives to continuously strengthen its corporate governance by establishing responsible management systems and strengthening its supervision as well as surveillance functions, while working to improve the transparency of management. In June 2003, Resona Holdings became the first banking institution in Japan to adopt the Committees Governance Model (currently known as the company with a nominating committee, etc. governance model) with outside directors representing a majority of its Board of Directors, to stimulate debate. The Group also assigned decision-making on crucial business matters and management surveillance to the Board of Directors and the execution of operations to the Executive Officers, aiming to reinforce the surveillance and decision-making functions of the Board of Directors.

We unified the Group's basic approach to corporate governance, integrating the auditing companies of Group banks and other companies. The presidents of Group banks also serve as Executive Officers of Resona Holdings in order to centralize group governance. Within this structure, we manage Group companies in order to enhance the corporate value of the Group.

(2) Status of Internal Auditing Systems

The Resona Group recognizes that internal auditing plays an important function in supporting and enhancing its corporate value through the assessment, evaluation and improvement of the status of management activities aimed at ensuring the soundness of its business operations and securing the trust of society.

In line with this recognition, Resona Holdings has formulated the *Basic Policy on Group Internal Auditing*. Under the initiative of the Board of Directors, the Company also established the Internal Audit Division, which maintains strict independence from divisions in charge of the execution of the Group operations and is headed by an executive officer who has been specially appointed to oversee the audit function. Furthermore, with the aim of enhancing corporate governance through the strengthening of audit functions, relationships between the Internal Audit Division, the Board of Directors, the Audit Committee and representative executive officers are clearly defined. Specifically, communication between the Board of Directors and the Audit Committee serves as a reporting line of primary importance in the overall audit structure. Meanwhile, the committee has an explicit reporting line with the Internal Audit Division, through which it gives direct instructions and receives reports. This structure aims to secure solid supervision over representative executive officers and provide check-and-balance functions over their activities.

If a major issue arises concerning management at Group companies, Resona Holdings' Internal Audit Division performs audits with the internal auditing departments of each Group company.

(3) Compliance Systems

The Resona Group has established the *Corporate Mission*, which forms the basis for the judgments and behavior of directors and employees; the *Resona Way* (Resona Group Corporate Promises), which outlines the basic stance, based on the *Corporate Mission*, that directors and employees should take toward all stakeholders; and the *Resona Standards* (the Resona Group's Behavior Guidelines), which are specific guidelines about behavior expected from directors and employees under the *Corporate Mission* and the *Resona Way*.

Resona Holdings and the Group companies have prepared a *Basic Compliance Policy*, which makes clear, from a compliance point of view, the roles of directors and employees as well as a basic framework for organizational systems and training programs based on the *Corporate Mission* and other statements. Each Group company formulates and implements its own *Compliance Program* every fiscal year as an action plan for strengthening its compliance posture. This approach allows Group companies to take the initiative in enhancing their own compliance structures.

Meanwhile, the *Resona Legal Counsel Hotline* and the *Resona Compliance Hotline* are available for employees seeking advice and wishing to report on compliance issues. We are constantly striving to strengthen these internal reporting systems. More specifically, we have clarified internal rules to make the systems safe for Group employees to use.

Moreover, the *Resona Accounting Audit Hotline* is in place and open to reports from external persons regarding fraudulent or inappropriate employee conduct in the course of settling accounts, accounting-related internal control activities and accounting audits.

Run by external law firms, the *Resona Legal Counsel Hotline* and the *Resona Accounting Audit Hotline* are independent from the Company's management. However, all incidents reported to these hotlines are directly reported to an outside director who serves as the chairman of the Audit Committee. In these ways, we are striving to improve the reliability and transparency of these systems.

With regard to our compliance structure, we have established a Compliance Division at Resona Holdings and Group companies while appointing Compliance Officers at each bank branch, division and department within the Group. We have also established a Group Compliance Committee, which is composed of members from Resona Holdings and Group companies. The Group Compliance Committee deliberates on compliance issues within the Group.

In addition, we have clearly defined the specific responsibilities of management divisions at Resona Holdings and each Group bank for handling customer relations, such as safeguarding customers, improving convenience, explaining our services clearly, consulting, responding to customer complaints and securely handling customer information. If operations are outsourced to a third party, the management divisions in charge are responsible for ensuring the appropriate handling of customer data and the quality of services provided. The Service Quality Management Committee is composed of members from these management divisions. Through the implementation of cross-organizational initiatives based on the deliberation and management conducted by the Group Compliance Committee and the Service Quality Management Committee, the Resona Group is taking on the challenge of becoming the most-trust banking group.

(4) Status of Risk Management Systems

Resona Holdings has established the *Group Risk Management Policy* as its basic policy for conducting risk management within the Group. This policy clarifies the types and definitions of various risks, organizations and structures required for effective risk management and the basic risk management framework to create a robust risk management system. Specifically, Resona Holdings has established a Risk Management Division in charge of comprehensive risk management as well as category-specific risk management divisions based on a policy of developing a risk management structure. Together with this, all of these divisions are working to strengthen Groupwide risk management through: (1) the presentation of risk management policies and standards to Group companies; (2) preparatory discussions on important matters concerning risk management at Group companies; and (3) the receipt of periodical reports on the status of Group companies' risk management and exposure. Meanwhile, individual Group companies formulate their own risk management policies that coincide with the *Group Risk Management Policy*, factoring in their business scale, operations involved, business characteristics and risk management and exposure status in order to achieve the most efficient and appropriate risk management system for each company.

In particular, credit risk is a major risk category for banking operations. We define credit risk as "a risk that arises when the value of assets (including off-balance sheet assets) declines or disappears as a result of the deterioration of the financial position of obligors." Having established a unified *Group Credit Policy*, which lays out a standard set of basic principles for credit management for the Group as a whole, the Resona Group conducts strict credit risk management. An overconcentration of credit extended to certain obligors and industries, as well as an inadequate framework for individual credit in the past, put Resona Holdings in a situation where we had to receive an injection of public funds. Based on this experience, the *Group Credit Policy* focuses on two facets of

credit risk management: stringent credit score management and portfolio management that emphasizes risk diversification.

Also, we endeavor to manage market, liquidity, operational, reputational and other risks by: (1) setting necessary limits; (2) creating applicable guidelines; (3) assessing risks; (4) formulating contingency plans; and (5) employing other measures required according to the nature of each risk category.

Moreover, Resona Holdings and its Group companies have taken preparatory measures for cases where a risk materializes due to a disaster, system failure or other cause and is of such significance that it cancels out all their risk management efforts and develops into a crisis. In more specific terms, we have established a comprehensive crisis management structure, including the formulation of a basic crisis management policy, so that we will be able to counter the crisis efficiently and effectively and to ensure continued operations during such crisis, effecting quick operational recovery to normal conditions.

2. Basic Views on Eliminating Anti-Social Forces Update

[Basic Approach to Elimination of Anti-Social Forces]

The Resona Group believes that preventing and eradicating transactions with anti-social forces are critically important to its public mission and social responsibility as a financial institution. Our basic approach is to intervene in and nullify transactions that would support anti-social forces through the corporate activities of Resona Holdings and Group companies.

[Status of Measures to Eliminate Anti-Social Forces]

a. Internal Rules and Regulations

The *Resona Standards* (the Resona Group's *Behavior Guidelines*) declare that the Resona Group will adopt a resolute stance when dealing with anti-social forces and in no way tolerate criminal activities. Specific internal rules and regulations exist based on the *Basic Compliance Policy*.

b. Divisions and Managers Responsible for Preventing Illicit Demands

Resona Holdings and Group companies have designated their compliance divisions as the departments responsible for countering anti-social forces. The compliance divisions take appropriate measures to prevent and nullify transactions with anti-social forces.

Group banks have managers at each business base in charge of preventing illicit demands. These managers are registered at the nearest police station and receive special training by the Public Safety Commission, and they are responsible for preventing and resolutely resisting illicit demands from anti-social forces.

c. Cooperation with External Professional Organizations

The compliance divisions at Resona Holdings and Group companies have formed cooperative relationships with law enforcement agencies, law firms and other professional organizations, and branch offices communicate and consult with nearby police stations on safety issues.

d. Collecting and Managing Information on Anti-Social Forces

The compliance divisions of Resona Holdings and Group companies collect, analyze and uniformly manage internal and external information about anti-social forces.

e. Compliance Manual

Sections of Resona Holdings and Group companies' *Compliance Manual* are dedicated to providing guidance on resolutely acting as an organization to counter anti-social forces.

f. Training

The *Basic Compliance Policy* of Resona Holdings and Group companies clearly describes the crucial importance of preventing and eliminating transactions with anti-social forces. We provide ongoing training and education on these compliance issues for directors and employees, spreading awareness throughout the organization.

g. Introduction of Terms of Crime Syndicate Elimination

Resona Holdings has introduced "terms of crime syndicate elimination" at its Group banks. Prior to entering into transactional or other kind of relationships with customers, we require those potential customers to declare and ensure that they are not, nor will not become, antisocial forces. If a customer violates his/her commitment or is deemed to be an antisocial force, we use the terms of commitment as a legal ground to terminate transactions with this customer. Through the use of the terms, Resona Holdings is working to prevent any transactions with antisocial forces.

V. Other

1. Adoption of Anti-Takeover Measures

Adoption of Anti-Takeover Measures:	No
-------------------------------------	----

Supplementary Explanation

Resona Holdings has not prepared any specific defense takeover measures, such as by issuing new stock or stock options for reasons other than raising capital for business purposes. Resona Holdings aims to enhance corporate value and shareholder returns without having to resort to such measures.

2. Other Matters Concerning the Corporate Governance System

[Overview of Internal System for Timely Disclosure]

1. Deliberation and Reporting Concerning Timely Disclosure

With the aim of ensuring the reliability of the Group's financial reporting and the appropriateness of its information disclosure, important matters regarding information disclosure and information disclosure control are reported to and discussed at meetings of the Executive Committee.

2. Formulation of Internal Rules Concerning Timely Disclosure

To ensure the appropriateness of its timely disclosure, Resona Holdings and its Group companies have formulated guidelines for timely disclosure.

3. Assignment of Dedicated Departments Responsible for Timely Disclosure

Resona Holdings has assigned certain departments to be responsible for timely disclosure. To promote timely disclosure, these departments enter into discussions with the relevant department once they obtain information to be disclosed, and they follow prescribed procedures to ensure that the disclosure of such information is done in an appropriate manner. These departments are also responsible for amending internal rules and regulations concerning timely disclosure and for reviewing, and revising when necessary, items and standard monetary amounts for consideration before making decisions concerning disclosure. These amendments and revisions are disseminated through the Group by these departments.

The Succession Plan for the Resona Group's Management Personnel

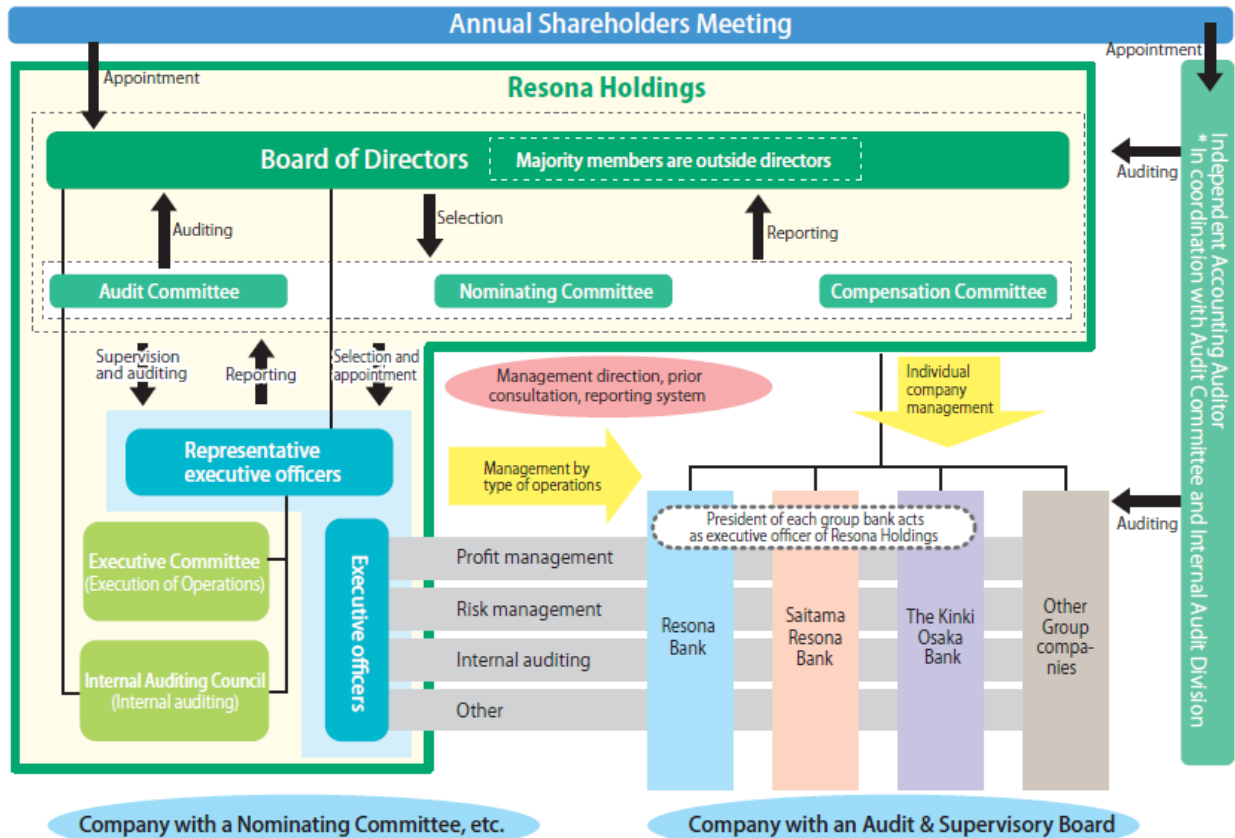

Aiming for sustained improvements in corporate value, the Group introduced a succession plan in June 2007 that serves as a mechanism to ensure the successions of the top management roles and responsibilities at the Company and each Group bank and secure the transparency of the process of selecting and nurturing directors.

The scope of the succession plan covers various candidates, from those who are candidates for the next generation of top leadership to those who are new candidates for directorships. The process of selecting and nurturing successors is carried out steadily according to a schedule, matching qualified candidates to the appropriate rank. The Group retains the objectivity of this process by drawing on the advice of external consultants. Evaluations of candidates undergoing the process are reported to the Nominating Committee. In addition to receiving reports on candidate evaluations, members of the Nominating Committee come into direct contact with candidates as part of the process, evaluating candidates' characters from various aspects.

The activities of the Nominating Committee are reported to the Board of Directors, of which outside directors are the majority, and are discussed from diverse perspectives. Through the entire process, which is highly transparent, each potential director's capabilities and competencies are closely studied and enhanced where appropriate.

In addition, Resona Holdings has set forth seven competencies that define the ideal candidate for the position of director. By ensuring that the directors in the Nominating Committee as well as the other directors share common ideals regarding candidates, the Company clarifies standards for the evaluation and nurturing of successors and thereby aims to realize impartiality during the entire process.
