[^0]Approx. 5\% growth in net sales, approx. 8\% growth in operating income

The appreciation of the yen had a negative impact, but overseas, local currency base grew by approx. 4\% In Japan, driving forces are Health Care and Feminine Care businesses.

- Consolidated net sales fluctuation

[^1]
## Profit increased due to effects of material cost fluctuations and rise in income

- Consolidated operating income fluctuation

In Japan, steady growth from sales expansion of high value-added products

## In Asia, active investment to expand the market
