1. Qualitative Information on Quarterly Financial Results

(1) Explanation of Operating Results

During the three months ended May 31, 2025 (from March 1, 2025 to May 31, 2025), consumer spending made a minor recovery due to such factors as improvements in the employment and income situation, and an increase in the number of foreign visitors to Japan. However, this did not result in a full-scale economic recovery, as real wages decreased due to nominal wages failing to keep pace with rising prices. On the other hand, the outlook for the Japanese economy remains uncertain due to such factors as rising prices, trade and other policy trends in the U.S., and trends in conflict areas around the world.

In the drugstore industry, the primary area of the Group's business, competition is intensifying due to such factors as the competition for new store sites with competitors including those from other industries, major players expanding their scales of business through mergers and acquisitions, and the expansion of customer services involving players from across different industrial sectors and business formats.

Under such circumstances, the Group strove to provide products and services in response to customer needs. In the sales of goods, sales of rice-related products increased with the rising demand, and the Group focused on the development of its PB products and the expansion of the use of the WAON POINT service despite a decrease in cigarette sales caused by their discontinuation in an effort to promote health. In the dispensing division, the number of prescriptions handled increased due primarily to an increase in the number of stores with dispensing pharmacies (2,272 stores as of May 31, 2025). As a result, sales of goods and dispensing services at existing stores remained solid compared with the previous year. In addition, with a focus on the WAON POINT service, the Group has been able to increase the number of Welcia members, the Group's point members, to 14 million, by stepping up its measures to attract customers through improvement in the penetration rate of its point card and app. Furthermore, the Group continued to focus on the product development of its PB products with an emphasis on improving their functions, quality, and eco-friendly features and made efforts to expand the sales of Karada Welcia and Kurashi Welcia. The private-label lineup included 434 products as of May 31, 2025.

As part of its vision of 2030, the Group aims to become the "No. 1 health station in the community." In an effort to achieve the vision, it launched "Care Capsule," facilities to provide comprehensive healthcare service, at AEON TOWN Makuharinishi in March. Care Capsule offers a variety of services, including counseling and health checkups provided by registered dietitians, aimed at preventing disease and promoting pre-disease care. Moreover, the Welcia Group is committed to fulfilling its role in providing local communities with an infrastructure that offers safety and peace of mind through activities such as the Welcafe local collaborative community space, which won the GOOD DESIGN AWARD, and the "Uetan-go" mobile sales vehicles, which also won the award, as well as the newly launched nursing care taxi service.

As for store openings and closures, the Group as a whole opened 19 stores and closed 27 stores, for a total of 3,005 stores Group-wide as of May 31, 2025.
