Notice Regarding the Recording of Non-operating Income (Subsidy Income)

We hereby announce that we have recorded non-operating income (subsidy income) for the second quarter of the fiscal year ending March 2026 (July 1, 2025 – September 30, 2025) as follows.

1. Details of Non-operating Income (Subsidy Income)

Our company has been selected as a subsidy recipient for the “Large-Scale Demonstration of Technologies for Updating High-Precision 3D Map Data Globally Using Probe Car Data,” a project under the Small/Startup Business Innovation Research by the Ministry of Economy, Trade and Industry. The project period is from March 2024 to March 2026. During the second quarter of the fiscal year ending March 2026, a provisional payment inspection was conducted for expenses incurred up to March 31, 2025, and the inspection by the project's operating support organization was completed on September 29, 2025. As a result, 115 million yen was recorded as subsidy income under non-operating income.

2. Impact on Business Performance

The impact of the above non-operating income (subsidy income) on our business performance is reflected in the “Consolidated Financial Results for the Six Months Ended September 30, 2025 (Under Japanese GAAP)” announced on today.
