Notice Concerning Revision to Dividend Forecasts for the Fiscal Year Ending March 2026

Remixpoint, Inc. (the “Company”) announced in the “Notice Concerning Revision to Dividend Forecasts for the Fiscal Year Ending March 2026” dated October 2, 2025, that the dividend per share with a record date of March 31, 2026, would be ¥3. However, the Company hereby announces that the Board of Directors of the Company resolved, at a meeting held on December 11, 2025, to revise its per-share dividend forecasts as described below.

1. Details of revision

	Annual dividend		
	Second quarter-end	Fiscal-year end	Total
Previous forecasts		¥3.00	¥3.00
Revised forecasts	—	¥5.00	¥5.00
Actual results for the current fiscal year	¥0.00	—	—
Actual results for the previous fiscal year (Ended March, 2025)	¥0.00	¥0.00	¥0.00

2. Reason for revision to dividend forecasts

The Company’s core approach to capital policy is to seek an appropriate balance between healthy financial underpinnings, improving capital efficiency, and the strengthening of shareholder returns, while also increasing corporate value by growing and expanding businesses and by improving management efficiency and profitability. The Company considers the returning of profits to our shareholders to be a priority management policy.

In the energy business, which engages in the electric power retail business, new orders from high-voltage and low-voltage customers, as well as electricity sales volume, have continued to grow steadily, as a result of strengthening the sales agent network and active sales promotion efforts. Also, in the electricity storage solution business, which engages in the storage batteries business, the number of storage batteries sold

steadily grew in the Company's original-brand home-use storage battery systems (remixbattery) and also in small industrial hybrid storage batteries for plants, commercial facilities, and other corporate customers, as a result of the development of sales agents for storage batteries and active promotion of sales activities. As the operating results of both the energy business and the electricity storage solution business have been progressing steadily, based on the above policy, the Company has decided, as a return of profits to shareholders, to increase the dividend by ¥2 per share to ¥5, with a record date of March 31, 2026.
