Release of Q1 FY3/27 Results Briefing Transcript

OKADA AIYON CORPORATION (Head Office: Minato-ku, Osaka; Representative Director and President: Yuji Okada) hereby announces that it has published the transcript of its financial results briefing for the first quarter of the fiscal year ending March 2027, with the aim of deepening investors' understanding of the Company's business and growth strategy.

In addition to an overview of the first-quarter results for the fiscal year ending March 2027, the transcript explains the domestic and overseas business environment as well as the progress of the new medium-term business plan "Onyx" (including its priority initiatives such as pricing, after-sales business, overseas business, and inventory optimization). It also includes the question-and-answer session held on the day of the briefing, allowing readers to review the Company's current direction, including the winning approach in the after-sales business, internal KPIs, and its view of the market.

We hope this content will help deepen your understanding of the Company's medium- to long-term growth strategy and earnings structure.

Please access each item below.

◆ Transcript

**This transcript has been partially edited and summarized for readability and accuracy, while preserving the substance of the remarks made at the briefing.*

**This transcript contains forward-looking statements based on the Company's plans, expectations, and judgments as of the date of the briefing. These statements are based on information available at the time of the briefing, and actual results may differ from these forward-looking statements due to various factors, including economic conditions, market environment, and foreign exchange fluctuations.*

We will continue to strive to enhance constructive dialogue with our shareholders and investors.

◆ About OKADA AIYON

Since its founding in 1938, OKADA AIYON has been a machinery manufacturer primarily engaged in the manufacture, sales, and maintenance of construction machinery attachments such as crushers and hydraulic breakers. While maintaining the top domestic market share in demolition and environmental attachments—its core products—the Company is also focusing on the forestry machinery field and the expansion of overseas markets.
