**Q&A for the Financial Results Briefing
for the 1Q of the Fiscal Year Ended May 31st 2027 (Excerpts)**

On October 13, 2026, the Company held an online briefing session to present our financial results for the first quarter of the fiscal year ended May 31, 2027. This document summarizes the main points of the question-and-answer session held during the briefing. Please note that some content has been added or revised to aid understanding.

Q1 : Regarding the status of inquiries for IoT related business, are there any new project inquiries in addition to the major order received in September 2026?

A1 : In our IoT related business, in addition to securing a major order in September 2026, we are currently continuing discussions with customers regarding projects looking two to three years ahead, and we recognize that demand remains strong. We are focusing our efforts on proposal activities to steadily convert this demand into orders. Furthermore, we do not currently see any significant changes in the competitive landscape.

We have already received inquiries regarding new products for new customers, and we aim to secure orders and contribute to sales while continuing to address customer needs.

Based on the current status of inquiries for both existing and new products, we view medium- to long-term business opportunities in a positive light.
