Note 1: The figures above are based on preliminary operating data, and may differ from actual results.
Note 2: Existing store sales data is based on stores that have been continuously operating for at least 12 months as of the end of the month; data from stores that closed or temporarily suspended business during the month are not included.
Note 3: The Company also generates revenue from wholesale, e-commerce, and other operations. Sales growth may thus differ from that reported on the income statement.

■Topics

In October, sales across all of the Company's eyewear stores in Japan increased 15.7% year on year, and sales at existing stores increased 8.4%.
During the month, higher spend per customer—driven by ongoing promotional campaigns and initiatives to enhance in-store customer service—along with favorable calendar factors and strong inbound demand, contributed to the growth in existing store sales.
As of the end of October, the total number of eyewear stores in Japan was 594.
