[Monthly comment]
In October, net sales were 114.4% year on year for all stores and 107.3% for existing stores. As a result, existing store sales exceeded those of the same month of the previous year for the 62nd consecutive month.
In terms of products, apparel was the main driver of overall performance. Although temperatures were higher than in the previous year, sales grew, supported by planned promotions for autumn and winter items and strong e-commerce sales. AV equipment and hobby goods also grew significantly.
Successful merchandising that accurately captured seasonal needs contributed to steady business expansion.
