1. Overview of Operating Results, etc.

(1) Overview of Operating Results for the Period

Under the tagline "Solve with idea, Solve with you.," the Solvvy Group aims to help clients systematize, revitalize and monetize their businesses by providing its unique stock business consulting.

In an era in which lifestyles, business practices and even people's values are changing at an accelerating pace, we operate our businesses based on the belief that our mission and identity are to think and solve problems together with our clients, drawing on a wealth of ideas to address diverse challenges.

Through our unique SAaaS (Smart Assurance as a Service) method, which consists of warranties, digital marketing, system development, business operations and embedded finance, we operate three core businesses: the HomeworthTech Business, which focuses on the housing area; the ExtendTech Business, which centers on products and services in the renewable energy area; and the LifeTech Business, which operates in the reskilling area, centered on culture schools, with system development at its core.

During the three months ended September 30, 2026 (July 1, 2026 to September 30, 2026), while we continued to invest proactively in human resources and digital areas to strengthen our stock business consulting and develop new areas toward achieving our medium- to long-term strategy, progress in existing businesses and the promotion of internal operational DX paid off, and our business continued to progress steadily.

In addition, in view of macroeconomic conditions such as persistent inflationary trends and changes in the financial environment, we worked to build and strengthen a continuous and stable base of non-operating income, including enhancing asset value through the appropriate replacement of income-generating real estate held and optimizing our financial asset portfolio.

As a result, for the three months ended September 30, 2026, net sales were ¥1,661 million (up 8.3% year on year), operating profit was ¥236 million (up 17.3%), ordinary profit was ¥464 million (up 23.2%), and profit attributable to owners of parent was ¥307 million (up 24.2%).

Operating results by segment are as follows.

Effective from the first quarter of the fiscal year ending June 30, 2027, the Company has changed its reportable segment classification, and year-on-year comparisons are based on the classification after the change. For details, please refer to "2. Quarterly Consolidated Financial Statements and Major Notes (3) Notes to Quarterly Consolidated Financial Statements (Notes on segment information, etc.)."

(i) HomeworthTech Business

The HomeworthTech Business focuses on the housing area.

Through various warranty services, including "Jusetsu Anshin Support," a long-term warranty for housing equipment and our flagship service since our founding, and the "20-Year Building Warranty Backup Service," which covers the building structure for 20 years after delivery, we support housing companies in strengthening their flow business and creating stock business.

During the period, we continued to focus on acquiring long-term warranty contracts for housing equipment and buildings and promoted the acquisition of new types of warranty contracts such as earthquake warranties. We also helped housing companies systematize, revitalize and monetize their businesses through comprehensive support using stock business consulting to address their management issues.

As a result of these initiatives, all key KPIs grew year on year: new contract value of ¥1,711 million (up 42.3% year on year), balance of deferred revenue and long-term deferred revenue of ¥17,931 million (up 22.2%), and unused balance of the e-money issuance service of ¥3,080 million (up 14.8%).

As a result, net sales for the period were ¥1,154 million (up 21.1% year on year), and segment profit was ¥515 million (up 39.3%).

(ii) ExtendTech Business

The ExtendTech Business develops businesses for products and services in renewable energy-related areas and the education ICT area, and creates new areas following its existing businesses.

In the renewable energy area, including solar power generation and storage battery systems, the need for warranties on equipment has been increasing against the backdrop of growing momentum toward a sustainable society in recent years. We provide stock business consulting centered on various after-sales service solutions, including long-term warranties.

During the period, we promoted the business in response to social needs for residential renewable energy equipment, including solar power generation systems and storage battery systems.

Meanwhile, following a review of the plan for GIGA tablet warranties (NextGIGA projects), we have adopted a conservative plan for the fiscal year ending June 30, 2027. In addition, due to equipment supply schedules at a certain business partner, the recognition of some sales has shifted.

As a result, net sales for the period were ¥341 million (down 18.7% year on year), and segment profit was ¥242 million (up 1.2%).

(iii) LifeTech Business

The LifeTech Business, centered on providing system integration based on the extensive track record and technology development resources of our subsidiary MediaSeek, Inc., provides SaaS products for businesses and contract development of core systems in the reskilling area, centered on culture schools, and also operates various businesses such as image analysis and AI, and online service development in the education, healthcare and entertainment areas.

During the period, we promoted the acquisition of new contracts by providing a student app based on "MyClass," a core system for culture schools. Meanwhile, selling, general and administrative expenses increased due to higher company-wide common expenses (increases in personnel expenses, office expenses, commissions paid, etc. associated with growth investments).

As a result, net sales for the period were ¥157 million (up 4.0% year on year), and segment profit was ¥35 million (down 33.9%).

(KPI Trends)

	Lifestyle DX	93	108	102	141	134	145.0%

Note: Net sales figures are for each quarterly consolidated accounting period.

(2) Overview of Financial Position for the Period

(Assets)

Total assets at the end of the first quarter of the fiscal year ending June 30, 2027 decreased by ¥144 million from the end of the previous fiscal year to ¥34,278 million. This was mainly due to increases of ¥168 million in accounts receivable - trade, ¥141 million in other current assets, ¥112 million in long-term prepaid expenses and ¥241 million in real estate for investment (net), partially offset by decreases of ¥677 million in cash and deposits and ¥247 million in investment securities.

(Liabilities)

Liabilities at the end of the period decreased by ¥112 million from the end of the previous fiscal year to ¥28,775 million. This was mainly due to increases of ¥252 million in long-term borrowings and ¥504 million in long-term deferred revenue (the portion of warranty fees received in a lump sum for the extended warranty business for housing equipment that is scheduled to be recognized as revenue over periods exceeding one year), partially offset by decreases of ¥223 million in income taxes payable, ¥318 million in deposits received and ¥227 million in provision for bonuses.

(Net assets)

Net assets at the end of the period decreased by ¥32 million from the end of the previous fiscal year to ¥5,502 million. This was mainly due to an increase of ¥196 million in retained earnings resulting from the recording of profit attributable to owners of parent of ¥307 million and dividends of surplus of ¥110 million, partially offset by a decrease of ¥229 million in valuation difference on available-for-sale securities.

The Company's equity ratio was 16.0%, which is low compared with other operating companies. This is attributable to our business model, in which warranty fees are received before services are provided. Of our liabilities, deferred revenue and long-term deferred revenue (future profit) account for 64.6% and deposits received and long-term deposits received (mainly backed by cash and deposits) account for 21.4%, while interest-bearing debt is at a low level of 8.3%. Furthermore, the current ratio is at a sufficient level of 282.5%, and our financial soundness is adequately ensured.

(3) Explanation of Consolidated Earnings Forecasts and Other Forward-Looking Information

Regarding the consolidated earnings forecast for the fiscal year ending June 30, 2027, contract acquisition in each business during the current fiscal year and the collection of payments for contracts acquired through the previous fiscal year are progressing smoothly, and there is no change from the consolidated earnings forecast announced on August 14, 2026.

(Notes) 1. "Other" is a business segment not included in reportable segments and includes insurance agency commissions, etc.

2. The adjustment to segment profit of ¥(465,650) thousand represents corporate expenses of ¥(465,650) thousand not allocated to any reportable segment. Corporate expenses are expenses related to the administrative departments of the Company's head office.

3. Segment profit is reconciled with operating profit in the quarterly consolidated statement of income.

2. Information on impairment losses on non-current assets, goodwill, etc. by reportable segment

Not applicable.

II. Three months ended September 30, 2026 (July 1, 2026 to September 30, 2026)

1. Information on net sales and profit or loss by reportable segment

(Thousands of yen)

	Reportable segments				Other (Note 1)	Total	Adjustment (Note 2)	Amount in quarterly consolidated statement of income (Note 3)
	Homeworth Tech	Extend Tech	LifeTech	Subtotal				
Net sales								
Sales to external customers	1,154,339	341,989	157,077	1,653,407	8,066	1,661,473	–	1,661,473
Inter-segment sales or transfers	–	–	8,199	8,199	–	8,199	(8,199)	–
Total	1,154,339	341,989	165,277	1,661,606	8,066	1,669,673	(8,199)	1,661,473
Segment profit	515,816	242,236	35,661	793,714	6,696	800,410	(563,515)	236,895

(Notes) 1. "Other" is a business segment not included in reportable segments and includes insurance agency commissions, etc.

2. The adjustment to segment profit of ¥(563,515) thousand represents corporate expenses of ¥(563,515) thousand not allocated to any reportable segment. Corporate expenses are expenses related to the administrative departments of the Company's head office.

3. Segment profit is reconciled with operating profit in the quarterly consolidated statement of income.

2. Matters related to changes in reportable segments, etc.

(Change in classification of reportable segments)

Effective from the first quarter of the fiscal year ending June 30, 2027, "FinTech Business and Others," which was previously included in reportable segments, has been reclassified as "Others," which is not included in reportable segments, due to its decreased materiality.

Segment information for the three months ended September 30, 2025 has been prepared and disclosed based on the classification after the change.

3. Information on impairment losses on non-current assets, goodwill, etc. by reportable segment

Not applicable.

(Notes in the event of significant changes in shareholders' equity)

Not applicable.

(Notes on going concern assumption)

Not applicable.

(Notes on quarterly consolidated statement of cash flows)

A quarterly consolidated statement of cash flows for the three months ended September 30, 2026 has not been prepared. Depreciation (including amortization of intangible assets excluding goodwill and of real estate for investment) and amortization of goodwill for the three months are as follows.

	Three months ended September 30, 2025	Three months ended September 30, 2026
Depreciation	¥62,650 thousand	¥77,971 thousand
Amortization of goodwill	925	925

(Notes on quarterly consolidated balance sheet)

Assets deposited with the Tokyo Legal Affairs Bureau as security deposits for issuance under the Payment Services Act are as follows.

	As of June 30, 2026	As of September 30, 2026
Investment securities	¥1,909,349 thousand	¥1,909,385 thousand
Total	1,909,349	1,909,385

In addition to the deposited assets above, the Company has concluded a guarantee contract for security deposits for issuance (contract amount: ¥600,000 thousand) with a financial institution pursuant to Article 15, Paragraph 1 of the Payment Services Act.

(Notes on significant subsequent events)

(Disposal of treasury shares through third-party allotment based on the capital and business alliance)

At the meeting of the Board of Directors held on September 15, 2026, the Company resolved to conclude a capital and business alliance agreement (the "Capital and Business Alliance") with JACCS Co., Ltd. ("JACCS") based on the basic agreement concluded with JACCS on May 15, 2026, and to dispose of treasury shares through third-party allotment to JACCS based on the Capital and Business Alliance. The disposal was carried out on October 5, 2026. The Capital and Business Alliance was concluded on September 15, 2026.

(1) Purpose of and reasons for the Capital and Business Alliance

The Company operates businesses that combine warranty services and technology, providing support for building and operating after-sales services and database marketing support to a cumulative total of 4,000 housing companies, as well as system development including SaaS. JACCS provides home remodeling loans in collaboration with home remodeling companies nationwide. In addition to attentive support for member merchants through its nationwide branch network, JACCS has established a highly convenient service system for customers, including online acceptance of loan applications.

Through this alliance, the two companies aim to create new value by leveraging their respective strengths through the joint development of a platform in the home remodeling area and the provision of warranty services.

(i) Joint development of a platform for DX in the housing industry

In the housing industry, addressing DX has become an industry-wide challenge. As a SaaS for the remodeling business, the Company has developed and operates a platform that fully digitalizes the process from ordering and receiving construction quotations and contracts through to payment. The two companies have been discussing the development of additional functions using this platform to improve the operational efficiency of remodeling member merchants. These functions will enable member merchants to seamlessly and automatically present payment options to customers, significantly reducing the operational burden on member merchants while providing customers with a smooth payment experience.

(ii) Collaboration in new areas such as warranty services

Since the days of its predecessor, Japan Living Warranty Inc., the Company has accumulated extensive expertise and know-how in the warranty business. By collaborating in the development of warranty services across a wide range of areas beyond housing, JACCS aims to differentiate its loan products and expand revenue other than interest, while the Company aims to develop new areas and expand sales of new products, thereby contributing to the growth of both companies.

(2) Disposal of treasury shares through third-party allotment

(i) Payment date	October 5, 2026
(ii) Number of treasury shares disposed of	414,000 shares of the Company's common stock (3.45% of total issued common shares)
